## To Whom It May Concern

We are very thankful to Mr. Eric Lim, Director of Spurtronic Pte Ltd to recommend this reliable measuring equipment, Temperature Monitoring and Voice Call Alert System; Model VM500-5 SGP.

→ I can vouch that this measuring system has somehow makes our working lives better, thus increasing our confidence to ensure our raw materials kept in the coldroom are free from defects and the process areas whereby the temperature and humidity are control within the specified range to facilitate the ergonomic part of production in order to increase our work efficiencies.

With data logging features, it enables the maintenance of temperature and humidity records as proof of our concern which is expressive enough to ensure part of our quality and environmental management system is in place.

→ Another plus factor, the after sales service provided by Mr. Eric Lim is indeed commendable.

I would not hesitate to recommend this system to any company looking for a reliable temperature and humidity monitoring system such as the VM500-5 SGP.

Sincerely yours,

Richard Teo  
Production Manager
